COLUMBIA MACHINE, INC. ANNOUNCES NEW HL4200 HIGH-LEVEL PALLETIZER AT 2019 PACK EXPO LAS VEGAS

Columbia Machine successfully showcased the HL4200 high-level palletizer with optional Smart Diagnostics at the 2019 Pack Expo in Las Vegas, California. The HL4200's standard features include a VFD-controlled pacer meter belt, bi-parting apron and Columbia's state-of-the-art Product Manager controls package. These features, combined with the ability to form "layer gaps" side-to-side and front-to-back, make the HL4200 extremely flexible. Ideal for both retrofit and new applications, the HL4200 can handle a wide variety of package types, including cases, display packs, totes, trays, bundles, shrink film, crates, small cases and more.

SUPERIOR STANDARD SAFETY FEATURES

Columbia's standard safety package contains Category 3 electrical safety components, including dual circuit safety interlocks & full height light curtains. This safety package provides a fully guarded, Performance Level D palletizer to keep your employees safe while meeting production demands.

COMPLETE SYSTEMS INTEGRATION

Columbia manufactures high-speed, high-level, floor-level & robotic palletizers, load transfer stations and provides complete system design and integration. With over 4,000 palletizers installed, Columbia is the leading palletizer solutions provider in North America.

ABOUT COLUMBIA MACHINE'S PALLETIZING DIVISION

Columbia Machine is the leading palletizer manufacturer in North America, producing in-line, high-speed palletizers, high-level palletizers, floor-level palletizers and robotic palletizers as well as load transfer stations and complete system integration. For over 50 years, Columbia's Palletizer Division has concentrated on serving the food, beverage, tissue towel, paper, dairy, pharmaceutical, personal hygiene, and chemical industries. Today, Columbia's client list includes many prestigious Fortune 100 companies that palletize everything from paper towels and laundry detergent to fruit juice, dog food and chicken.
